OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 4258 E / 223

Bangalore 9th October *1912*

2316

From M Shama Rao Esq I A
Offg *Inspector General of Education in Mysore*

10/2/10 13
Edn
131

To

K R Srinivasiengar Esq M A
Offg Secretary to the Government of His Highness
the Maharaja of Mysore General Revenue Departments

Sir

I have the honour to inform you that in accordance with Government Order No 6970-1/Edn 330-10-2 dated 1st June 1911 sanctioning the scheme for working the Pottery Section of the Industrial School Mysore as a separate department of the school the Industrial School Committee was to be given all the plant and material at a valuation and the budgetted amount of Rs 10 000/- as a working capital Provision was also made for certain initial equipment in the shape of machinery, racks frames &c as per para 8 of this office letter No 7866/610 of the 15th March 1911 These initial conditions have not fully come into existence and as a consequence the Pottery Section of the school has been working partly under the old and partly under the new terms

The concern stands on the following footing at present The Rs 10 000/- granted as working capital has been fully spent out The sale proceeds amounting to more than Rs 3 000/- have also been utilized An electric motor and a crushing machine have been provided A considerable quantity of racks and frames provided for in para 8 of this office letter quoted above have also been supplied and more of them will be supplied in the course of a month or so It is

these items of initial equipment that are responsible for the expenditure of the amount placed at the disposal of the Committee

It is believed however, that the conditions for giving a trial to the new scheme obtain now more or less and all the preliminaries will be in full working order before 1st November next The scheme may then have a trial for a couple of years as originally ordered either under the management of the Industrial School Committee itself or under a separate company or syndicate As a matter of fact, a company consisting of the marginally noted gentlemen has applied to me for the handing over of the Pottery Section to its management This application has been sent to the Chairman of the Industries and Commerce Committee for favour of opinion

M Kantharaj Urs Esq ,
H Nanjundaraj Urs Esq ,
A Rangaswamy Iyengar, Esq ,
K Narasimhaswamy Esq ,
M C Rangiengar Esq

In the meanwhile since the amount granted for working expenditure has all been spent, the Superintendent of the Industrial School Mysore requests that the amount of Rs 5 000/- sanctioned for frames racks, chimney &c and provided for in the last year's budget may be transferred to the Pottery Section which will enable the Committee to run the business

In the circumstances I request that Government may be pleased to order the transfer of Rs 5,000/- to the credit of the Committee The favour of very early orders is requested

Copy of the Industrial School Superintendent's letter No 16 dated 9th August 1912 with its enclosures is appended for reference

I have the honour to be

Sir

Your most obedient servant

Encl 4821 3

Edn 131-12-1

Letter No 164 dated 9th August 1912 from the Superintendent Industrial School Mysore on other duty to the Inspector General of Education in Mysore

With reference to your No 608/41 dated 15th July 1912 have the honour to submit herewith three statements of receipts and expenditure of the Pottery Section for the year 1911-12

2 There were 77 coolies (men and boys together) on the last day of the year as against 117 on the corresponding date of 1910-11 As equipments were not received in the year the number of coolies had necessarily to be reduced The Kannambady Reservoir works took away several of the coolies and fresh admissions were kept as low as possible as there was no necessity for more men till the equipments were completed Care was also taken to reduce the number of stipendiaries and to admit more boys under coolies Thus the number of stipendaries on 30-6-12 was only 13 as against 42 on 30th June 1911

3 The work was being dragged on with the same old engine stopping almost every half an hour The accommodation for drying tiles was not yet half as much as was necessary It was not therefore possible to give effect to the proposal of working on contract as per G O No 9970-1/Edn 330-10-2 dated 1st June 1911 The Motor and the Crushing Mill have been received and are being fitted up The racks are being made in the School

4 It will be seen from Statement A that the total expenditure of the branch was Rs 10 800 with a receipt of Rs 3 146 as sale proceeds There was on the last day of the year an excess of stock etc of Rs 1 589 The net cost was thus Rs 6 065 which included an initial cost of Rs 4 721 on account of Crushing Mill shed for the same etc Thus the actual net cost including Rs 115 due for fuel was Rs 1 458-10-0 Statement C shows that the value of manufactures for the year 1911-12 was Rs 6230 as against Rs 4 453 in 1910-11 in spite of the number of coolies and boys

having been reduced This increase in the value of manufactures by nearly 50 % was due to reducing the number of stipendaries who worked only 6 hours a day and increasing the number of boy coolies who worked 8 hours The loss in the manufacture was only Rs 1 459 as against Rs 3 110 in 1910-11

5 If the Motor be fixed the accommodation for drying be improved by early supply of racks and frames and if the burning accommodation be slightly enlarged the branch gives every hope of being a commercial success

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 6300 / 349

Bangalore 6th December *1912*

From M Shama Rao Esq M A
Offg *Inspector General of Education in Mysore*

To K R Srinivasiengar Esq M A
Offg Secretary to the Government of His Highness
the Maharaja of Mysore General & Revenue Depts

Sir

In inviting the favour of your attention to my letter No 4258/223 of the 9th October 1912 requesting the sanction of Gover ment for the transfer of Rs 5 000/- to the credit of the Committee of the Industrial School Mysore for the working expenditure of the Pottery Section I have the honour to inform you that the Super-intendent of the Industrial School states that the work of the Department is suffering much for want of funds

2 The Electric Motor has been installed A crushing machine and a considerable quantity of racks and frames have been supplied the cost being met out of Rs 10 000/- given to the Committee for working expenditure The Superintendent reports that after the Motor was fitted as many as 25 000 tiles were pressed in the month and as the existing defects are rectified the commercial success of

the

the Section would be an assured fact

3 o work the Pottery Section on the lines laid down in Government Order No 9970-1/Edn 330-10-2 dated 1st June 1911, the following conditions have to be fulfilled -

(1) The crushing of the clay has to be done by securing the Motor of 25 Horse power to drive the crushing mill

(2) Repairing the existing cutcha kilns 6 or 7 years old at a cost of Rs 1,000/-

(3) Furnishing additional racks &c at a cost of Rs 1,000/-

(4) Renewing the dies at a cost of Rs 1,000/-

(5) Improving the existing sheds for drying at a cost of Rs 1000/-

4 The Superintendent reports that if these are supplied and if the sum of Rs 5 000/- spent till now for initial expenditure, sheds &c , out of the working capital of Rs 10,000/- is given for working expenditure, the contract can be successfully worked out as the outturn is sure to be large and the tiles turned out of the properly crushed clay would find ready sale

In these circumstances I request the favour of early orders of Government on my letter under advertence

I have the honour to be,
Sir,
Your most obedient servant,

Offg Inspector General
